

Diaphragm pressure gauge per EN 837-3, chemical design, NS 100/160 Type series BA2...

Application area

- Machinery construction
- Chemical and petrochemical industry
- General process technology
- Water / wastewater

Features

- Diaphragm pressure gauge
- Nominal ranges -400 mbar to -1...24 bar, 0...25 mbar to 0...25 bar
- High quality case with bajonet ring NS 100/160 per EN 837-1 S1
- Case and measuring flange of stainless steel, diaphragm of Duratherm
- Accuracy class 1.6 as per EN 837-3
- High overload protection up to 5 times (option: up to 20 times)
- Degree of protection IP 65

Options

- Approvals/Certificates
 - Explosion protection (ATEX) for mechanical devices
 - Certificate of measuring equipment for Russian Federation
 - Material certificate per EN 10204
 - Calibration certificate per EN 10204
- Electrical contact device, see data sheet D3-028
- Electronical angle-of-rotation sensor, Type series PL1100, see data sheet D6-020
- Extended temperature range
- Wetted parts of special materials, e.g. PTFE, PFA, Monel, Hastelloy or Tantal.
- Connection to Zone 0
- Open measuring flange per DIN/ASME
- Safety case per EN 837-1 S3
- Case with liquid filling and degree of protection IP 66
- EAC declaration (upon request)

Application

Suitable for measuring liquids and gases; with open measuring flange also designed for viscous media and media containing solids. Because of its robust design, the device is suitable for use in tough environments.

Technical data

Constructional design / case

Design:	High quality case with bayonet ring per EN 837-1 S1, material: stainless steel mat.-no.-1.4301 (304) ; with blow-out device, material: PUR, ventilation valve, material: PUR
	Alternative: Safety design with blow-out back and solid baffle wall per EN 837-1 S3, Material: Stainless steel 1.4301 (304)
Nominal size:	NS 100 or NS 160
Degree of protection per EN 60529:	■ Without filling: IP 65 ■ With filling S1 case: IP 65 ■ With filling S3 case: IP 66
Case filling:	Option: Glycerine-water Further liquid fillings upon request.
Atmosph. pressure compensation:	Via ventilation valve. Safety case: internal pressure compensation diaphragm
Case seal:	Material gasket: NBR
Pressure chamber seal:	Material: NBR, optional PTFE. Further materials upon request.
Window:	Non-splintering laminated glass. Option: Non-splintering plastic (Macrolon)
Measuring element:	Diaphragm
Movement:	Stainless steel
Scale:	Pure aluminium, white with black inscription Option: with red marking, special scale upon request.
Pointer:	Pure aluminium, black. Option: with micro adjustment for zero point correction.
Mounting:	Via process connection
Weights:	NS 100: Flange Ø 100 without filling: approx. 1.9 kg Flange Ø 160 without filling: approx. 3.4 kg Flange Ø 100 with filling: approx. 2.2 kg Flange Ø 160 with filling: approx. 3.6 kg

NS 160:	
Flange Ø 100 without filling:	approx. 2.2 kg
Flange Ø 160 without filling:	approx. 3.7 kg
Flange Ø 100 with filling:	approx. 2.8 kg
Flange Ø 160 with filling:	approx. 4.3 kg

Process connection

Design:	Per EN 837-3, G1/2 B, 1/2" NPT or open measuring flange. Further process connections upon request.
---------	--

Material wetted parts

Measuring element:	Diaphragm: Duratherm (similar resistance as mat.-no. 1.4571 (316Ti)), alternatively with: ■ PTFE foil ■ PFA coating ■ Monel foil ■ Hastelloy C 276 foil ■ Tantal foil ■ Stainless steel foil
Measuring flange:	Stainless steel mat.-no. 1.4571, alternatively with: ■ PTFE lining ■ PFA coating ■ PVDF Further materials upon request.

Nominal range

See order details, further ranges upon request	
Overload protection	<u>Flange Ø 100:</u> standard: for a short time 5 times, max. 100 bar optional: 20 times, max. 100 bar * <u>Flange Ø 160:</u> Standard: 50 times* * negative measuring ranges upon request.

Accuracy

Accuracy class:	1.6 per EN 837-3
Temperature influence:	Max. ± 0.8% / 10K of measuring span per EN 837-3.

Temperature ranges

	without filling	with filling
Ambient:	-20...70 °C	-20...70 °C (60 °C) ¹
Media: ²	-20...110 °C	-20...70 °C (60 °C) ¹
Storage:	-40...70 °C	-40...70 °C (-20...60 °C) ¹

Extended temperature range (optional):

	without filling	with filling
Ambient:	-40...100 °C	-40...80 °C (60 °C) ¹
Media: ²	-40...150 °C	-40...150 °C

¹ Safety case S3

² Nominal range ≤ 1 bar up to 110 °C

Tests and certificates

Explosion protection: Ex-protection (ATEX) for mechanical devices

II 2G Ex h IIC T1...T6 Gb X

II 2D Ex h IIIC Txx°C Db X

Further details see Ex Instructions XA_005.

- EAC declaration (upon request)
- Certificate of measuring equipment for Russian Federation

Information on other models see order details or upon request.

Additional features (to be indicated if required)		
S30	Ex-protection (ATEX) for mechanical devices ³	 II 2G Ex h IIC T1...T6 Gb X
		 II 2D Ex h IIIC Txx°C Db X
H102	gasket	pressure chamber seal, gasket PTFE ⁴
H112	diaphragm respectively protective foil	PFA red lining
H132		Monel protective foil ⁴
H142		Hastelloy C276 protective foil ⁴
H162		Tantal protective foil ⁴
I2	pointer	with micro adjustment
R2	window	non-splintering glass with maximum pointer
R3		non-splintering glass with adjustable reference pointer
R12		Macrolon with maximum pointer ⁵
R13		Macrolon with adjustable reference pointer ⁵
T2	marking	on scale (please specify)
T3		fixed reference pointer (please specify)
W1020	material certificate	per EN 10204-3.1, wetted parts
W1204	calibration certificate	per EN 10204-3.1, 3 measuring points
W1201		per EN 10204-3.1, 5 measuring points
W2673	certificate of measuring equipment for Russian Federation	
W4010	overload protection	20 times (max. to 100 bar), short term, for measuring flange 100 mm
	extended temperature range	
Z1	connection to Zone 0 ⁶	with Zone 0 adapter (coupling element KF6)

Order code (example): BA2320 – A1090 – D20102 - ...

¹ with rubber filling plug for pressure compensation: nom. range ≤ 10 bar: IP54

² PN up to max. 25 bar

³ for devices with non-splintering glass only

⁴ no PTFE gasket for use in vacuum

⁵ not for devices with Ex-protection

⁶ for devices with Ex-protection only
